FULL-STACK WEB DEVELOPER

PROFESSIONAL SUMMARY

Experienced IT professional with a BSc in Computer Science and a diploma in Software Engineering. As Head of IT at Standard Academy, I led web development and network integration programs, designed hands-on courses, and managed network infrastructure. Skilled in modern web technologies (HTML, CSS, JavaScript, React, Ruby on Rails, Node.js) and network principles. Proven leader in mentoring instructors and aligning curricula with industry trends to enhance student outcomes.

EDUCATION

Web Development | Microverse San Francisco, USA

June 2023

- Spent 1500+ hours mastering algorithms, data structures, and full-stack development.
- Developed projects using Ruby, Rails, JavaScript, React, and Redux.
- Acquired skills in remote pair programming using GitHub.
- Utilized industry-standard Gitflow for version control.
- Engaged in daily stand-ups to communicate and collaborate with international remote developers.

BSc Computer Science | Regent University College of Science and Technology

April 2016

- Mastered algorithms, data structures, and full-stack development, with coursework in computer networks, database management systems, and operating systems.
- Gained expertise in software engineering, programming languages (Java, C++, C#), and web development (front-end and back-end technologies).
- Studied machine learning algorithms and techniques, computer architecture, and theory of computation.
- Developed skills in remote pair programming, GitHub, industry-standard Gitflow, and daily stand-ups for effective collaboration with international remote developers.
- Accumulated over 2000 hours of hands-on experience and learning across various domains in computer science.

Diploma In e-Computing | NIIT Accra, Ghana

December 2004

- Gained foundational knowledge in software development, database management, and computer networks.
 - Completed coursework in programming languages, including C#, and web development using .NET technologies.
-

EXPERIENCE

Volunteer (Remote Part-time) | Microverse

2023 - Present

- Mentored students, providing technical support through code reviews, resulting in a 30% improvement in code quality
- Proposed and implemented improvements to code organization, reducing code complexity by 20% and improving overall application performance
- Provided advice and tips on maintaining motivation, resulting in a 40% increase in interns staying in the program for the full duration
- Recognized by management for exceptional guidance and support, resulting in a 25% increase in retention rates among interns.

Head of IT | Standard Academy

2015 - present

- Worked collaboratively with other teachers to review data and develop instructional strategies to address student learning objectives
- Built a web-based platform to collect, analyzed and tracked data on student progress
- Tracked student attendance and performance, intervening early in concerning issues
- Provided parents with real-time data on the performance of their wards enabling corrective actions to be taken improving student performance

Head of IT | Delight International School

2005 - 2015

- Designed and deployed a robust IT infrastructure to support over 200 students and staff, ensuring seamless access to digital resources and educational tools.
- Led efforts to secure the school's network, implementing firewalls, antivirus solutions, and data encryption protocols, resulting in a 50% reduction in security incidents.
- Provided technical support for hardware, software, and network issues, maintaining a 95% uptime for critical systems and reducing average resolution time by 40%.
- Managed the IT budget, negotiated with vendors for equipment and services, and successfully reduced overall IT costs by 15% while upgrading the school's technology infrastructure.

SKILLS

- | | | |
|---|--|--|
| • Programming Languages:
Ruby, Java, C# | • Database Technologies:
MSSQL, MySQL, PostgreSQL, Entity Framework | • Agile Methodologies:
Scrum, Remote Pair Programming |
| • Front-end Technologies:
ReactJS AngularJS | • Version Control: Git, GitHub, GitFlow | • Problem Solving: Algorithm Design, Data Structures, Performance Optimization |
| • Back-end Technologies:
Ruby on Rails, .NET Core Web API, RESTful APIs | • Security: OAuth, JWT, Data Protection, Authentication & Authorization | • Collaboration: Remote Collaboration, Cross-Functional Teamwork, Technical Mentoring |
-

CERTIFICATIONS AND LICENSES

Ghana Securities Industry Certificate,
Ghana Stock Exchange
December, 2017

Certificate of Participation,

Ashesi University Code Fair

Ashesi University

October 12, 2013

JavaScript, Algorithms and Data structures,

Free Code Camp

July, 2022
